COMFORT[®] AIR Half Mask Respirators

Textured "No-Slip" Face Seal & Large, Flexible Rolled Sealing Edge

-Provides exceptional comfort & superior fit.

Unique Low Fitting Mask

-Provides ample room for eyewear.

Low "Dead Air" Space

-Improves worker comfort from less re-breathing of exhaled air.

Swivel Retainers

-Generous 70° swivel allows natural fit without pressure points. Special clips hold strap, eliminating annoying strap tangles.

Extra Large Inhalation Valves

-Lower inhalation resistance & contributes to easier breathing.

Deep Chin Cup

-Gives a more secure universal fit.

Multi-Position Cartridge Attachment

-#1 position is "sweptback" for maximum visibility. #2 & #3 change the cartridge positions for use under various PPE such as welding helmets & faceshields.

Unique Corrugated Exhalation Valve Diaphragm

-Only available on Dentec Safety's half-mask, this large diameter valve opens quickly and allows maximum exhalation of hot, humid air from the mask. Heat build-up is reduced and wearer comfort increased.

Series 100 Silicone

The Premier Series 100

Half-Mask Respirator is molded from pure silicone material with no extra additives. The Series 100 mask is the most comfortable, quickest to clean up, and the durability provides a long service life. Just 6 parts make up and Dentec Safety half-mask respirator! Identical replacement components are used on any of our half-mask respirators, and the same cartridges fit both half mask and full-face respirators. This simplicity in design eases maintenance and cleaning, and reduces inventory.

An Industry Favorite!

- Comfort and compatibility, without compromise.
- Low-profile design.
- Multi-position cartridge placement.
- Extra large inhalation valves.
- Patented corrugated exhale valve.
- Low "dead air" space.
- Unique low-fitting design.
- Textured non-slip face seal.
- Swivel strap retainers.
- Replaceable parts.

Series 300 Thermoplastic

Series 300 Thermoplastic

Molded from a custom-engineered thermoplastic blend that provides economy with function. Comfort and compatibility, without compromise. Low-profile design. Multi-position cartridge placement. Extra large inhalation valves. Patented corrugated exhale valve. Low "dead air" space. Unique low-fitting design. Use the same replacement parts as the Comfort-Air® series 100 silicone facepiece. Swivel strap retainers. Replaceable parts.

Series 400 Elastomeric

Low Maintenance/Limited Use, Series 400

Low Maintenance/Limited Use Comfort-Air Series 400 is priced to be disposable, but can be used over and over again like our series 100 silicone or series 300 thermoplastic half masks. Dentec Safety Comfort-Air® Respirators fit over 99% of wearers (based on end-user fit test data). Two sizes.

Are your head protection products certified to the latest edition of the CSA Z94.1-1 head protection standard?

Don't wait! Find out why ERB products are "head and shoulders above the rest".

**CSA Type 1 Class E
Crown Protection
(ANSI Type I Class E)**

**CSA Type 2 Class E
Crown & Lateral
Protection
Foam Lining)**

ERB is the first hard hat manufacturer to certify their entire line of head protection products to the new CSA Z94.1-15 standard. We offer the **NEW** CSA Type 1 Class E, G, C certified products that provide crown impact and penetration protection only (also meets ANSI Z89.1-2003) and CSA Type 2 Class E, G, C certified products that provides crown and internal impact and penetration protection. (This replaces the previous CSA Standard Z94.1005 designated as CSA Class E).

What really sets the new line of **ERB SAFETY** apart from the rest is the comfort and fit of their safety caps and full brim hard hats. The unique Secure Fit ratchet suspension features the only swiveling nape strap that provides unbelievable retention properties and stability. The hat stays on the head regardless of the position you are in. Don't believe it? See for yourself!

SAVED A LIFE PROGRAM

People working at heights risk their lives everyday and look forward to going home after work to be with their loved ones. Working at heights is a tough and scary job and we have to thank those that do this for a living be it on sky scrappers, bridges, power towers, offshore platforms or working on a roof to name a few.

Dentec Safety is committed to protecting people whether they are working in a workplace or at home. We stand behind our products and the people that count on them every day.

This is how our **SAVED A LIFE PROGRAM** works:

- When an individual falls while wearing a Dentec Safety harness and lanyard, we will provide them with free replacement products that were used to save their life.
- Simply return the used harness and lanyard to Dentec Safety Specialists with a letter providing the details and date of the fall and we will send a new replacement harness and lanyard free of charge along with a **SAVED A LIFE CERTIFICATE**.
